**Mock (rehearsal) exit (final) exam for MS / DNB General Surgery students**

*Scientific Programme*

**Day 1 Friday, 27.11.26**

| Time        | Session                                                                                                                                    | Faculty                                                                                               |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|
| 9.00–10.00  | <b>History, general physical examination (GPE) and abdomen examination</b>                                                                 | Dr Priyadarshan Jategaonkar,<br>Dr Santosh Irrinki,<br>Dr Deepak Verma,<br>Dr Vikas Gautam            |
| 10.00–11.00 | <b>Right upper quadrant (RUQ) pain and surgical obstructive jaundice (SOJ)</b><br><i>Gallstones and CBD stones, choledochal cyst (CDC)</i> | Dr Avinash Tank,<br>Dr Pravin Suryavasnhi,<br>Dr Harjeet Singh,<br>Dr Kailash Kurdia                  |
| 11.00–11.15 | <b>TEA</b>                                                                                                                                 |                                                                                                       |
| 11.15–12.15 | <b>Right hypochondrium (RHC) lump</b><br><i>Gall bladder cancer (GBC)</i>                                                                  | Dr Gaurav Kaushal,<br>Dr Anu Behari,<br>Dr Nikhil Agarawal,<br>Dr Ram Daga,                           |
| 12.15–1.15  | <b>Surgical obstructive jaundice (SOJ)</b><br><i>Ca pancreas</i>                                                                           | Dr Vinay Kumar Mahla,<br>Dr Devendra Chaudhary,<br>Dr Ram Daga,<br>Dr Sanjay Singh Negi,              |
| 1.15–2.00   | <b>LUNCH</b>                                                                                                                               |                                                                                                       |
| 2.00–3.00   | <b>Splenomegaly</b><br><i>Portal hypertension</i>                                                                                          | Dr Swamy Rajesh Hudugur,<br>Dr Dinesh Kumar Bharti,<br>Dr Kislay Kant<br>Dr Basant Kumar, AIIMS Patna |
| 3.00–4.00   | <b>Right iliac fossa (RIF) mass</b><br><i>Tuberculosis, ca colon</i>                                                                       | Dr Lakshman Agarawal,<br>Dr Kailash Kurdia,<br>Dr Manpreet Uppal,<br>Dr Mohit Kumar Badgurjar         |
| 4.00–5.00   | <b>Rectal bleeding</b><br><i>Ca rectum, ulcerative colitis</i>                                                                             | Dr Jaya Agarwal,<br>Dr Amit Gupta<br>Dr Manpreet Uppal<br>Dr Kislay Kant                              |

## Day 2 Saturday, 28.11.26

| Time        | Session                                                         | Faculty                                                                                         |
|-------------|-----------------------------------------------------------------|-------------------------------------------------------------------------------------------------|
| 9.00–10.00  | Inguinal hernia, hydrocele                                      | Dr Vinod Kumar Singhal,<br>Dr Akhilesh Sukhlecha<br>Dr Vikas Singh<br>Dr Mohit Kumar Badgurjar  |
| 10.00–11.00 | Incisional hernia                                               | Dr Anand Nagar,<br>Dr Abhimanyu Kapoor,<br>Dr Brijendra Singh<br>Dr Kulbhushan Haldeniya        |
| 11.00–11.15 | TEA                                                             |                                                                                                 |
| 11.15–12.15 | Peripheral arterial disease, ulcer, gangrene                    | Dr Rahul Khanna<br>Dr Jitendra Kumar Mangtani,<br>Dr Mohit Kumar Badgurjar<br>Dr Siddhant Khare |
| 12.15–1.15  | Varicose veins                                                  | Dr Priyadarshan Jategaonkar<br>Dr Jitendra Kumar Mangtani,<br>Dr Siddhant Khare                 |
| 1.15–2.00   | LUNCH                                                           |                                                                                                 |
| 2.00–3.00   | Ca breast, fibroadenoma                                         | Dr Gautam Anand,<br>Dr Seema Khanna,<br>Prof Nitin Khunteta,<br>Dr SVS Deo,                     |
| 3.00–4.00   | Solitary thyroid nodule (STN) / multinodular goitre (MNG)       | Dr Anjali Mishra,<br>Dr Sapana Bothra Jain,<br>Prof Nitin Khunteta,<br>Dr Sumita Jain           |
| 4.00–5.00   | Renal lump<br><i>Renal cell carcinoma (RCC), hydronephrosis</i> | Dr Anil Mandhani<br>Dr Subhash Mishra<br>Dr Vedant Kabra                                        |

## Day 3 Sunday, 29.11.26

| Time        | Session                                                                                                                                                            | Faculty                                                                   |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------|
| 9.00–11.00  | Short cases<br><i>15 minutes each × 8 cases</i>                                                                                                                    | Dr Ankur Punia,<br>Dr Divya Jain,<br>Dr Subhash Mishra,<br>Dr Puneet Dhar |
| 11.00–11.15 | TEA                                                                                                                                                                |                                                                           |
| 11.15–1.15  | Spots, OSCE, instruments, X-rays<br><i>10 minutes each × 12 cases. Students should mention 5–10 points in history, examination, investigations and management.</i> | Dr Ajay Sharma,<br>Dr Kapil Dev,<br>Dr Pradeep Jain,<br>Dr Sujoy Pal      |

## Stand-by long cases

- Ascites – cirrhosis
- Dysphagia – ca oesophagus, corrosive oesophagus
- Epigastric lump – pseudocyst
- Epigastric pain – peptic ulcer disease (PUD), chronic calcific pancreatitis (CCP)
- Gastric outlet obstruction (GOO) – ca stomach, pyloric stenosis
- Hepatocellular carcinoma (HCC)
- Hydatid liver
- Renal calculus
- Retroperitoneal tumour

## Short cases and spots

Benign prostatic hyperplasia (BPH) · Ca prostate · Haemorrhoids – internal, external, prolapsed · Hydrocele · Lipoma · Neurofibroma · Oral cancer – cheek, lip, tongue · Parotid tumour · Penile cancer · Stoma – ileostomy, colostomy (transverse, sigmoid; end, loop), mucous fistula · Testicular tumour

Abscess · Bed sore · Carbuncle · Cellulitis · Cleft lip · Cleft palate · Dermoid cyst · Filariasis · Fistula in ano · Ganglion · Haemangioma · Hydrocephalus · Hypospadias · Infected wound · Keloid · Melanoma · Meningocele · Neck lymph nodes · Naevus · Phimosis · Pilonidal sinus · Rectal prolapse · Sarcoma · Sebaceous cyst · Sentinel pile · Umbilical hernia · Umbilical nodule – malignant · Undescended testis · Varicocele

## Case summary submission

Students are encouraged to prepare a real-life case summary and submit it along with their registration.

The case summary should include:

- Clinical history (as narrated by the patient) and examination findings
- Clinical photos / video clips of examination findings
- Investigation reports and images (X-ray, CT, MRI, etc.)
- Operative and specimen photos
- Histopathology (biopsy) report

**Complimentary registration:** students whose case summary is accepted for presentation will be offered complimentary registration. Teachers whose students' case summaries are accepted will also be offered complimentary registration and will be included as faculty for discussion of that case in the scientific programme.
